# MULL • IONA • STAFFA TOURS FROM OBAN

## THREE ISLES EXCURSION

This excursion is one of the best day tours in Britain, providing a scenic route through the beautiful Isle of Mull and a visit to the Isle of Iona to see the famous abbey, but the highlight of this tour is the awe-inspiring visit to the unique Isle of Staffa to see Fingal's Cave.

This tour departs from the Ferry Terminal Railway Pier, Oban, on Caledonian MacBrayne's MV of Mull, crossing the Firth of Lorne to Craignure on Mull where you join our private coach. The scenic route through the island is via Glen More to Fionnphort where you board the ferry for Staffa. After landing on Staffa and visiting Fingal's Cave, you sail south to Iona. Once on Iona you can take a leisurely stroll through the Benedictine nunnery and the Reilig Oran - the burial place of the kings - on the route to Iona Abbey.

**Adults £60 Children £30.00**

## THREE ISLES 'EARLY BIRD' TOUR

This tour of Mull, Iona and Staffa is similar to the Three Isles Excursion. It leaves Oban earlier in the morning offering the chance to avoid crowds and enjoy a more leisurely day with time on Iona for lunch and to explore the island. You also save with the 'Early Bird' Special Fare.

**Adults £52 Children £26.00**

## TRESHNISH ISLES and STAFFA TOUR via Fionnphort

This is the ultimate choice in tours for those interested in ornithology and the natural history of these beautiful unspoilt islands.

We spend over two hours ashore on Lunga, the largest of the Treshnish Isles to visit the large colony of puffins nesting there. On Staffa an hour is ashore and on Iona there is a two hour visit to the island. (The Iona visit is not available on this tour on Sundays and Monday's)

Lunga was inhabited until the 1850's - the islanders leaving their isolated homes as a monument to their hardy existence. The views from the ruined homes are superb with spectacular scenery, seals off the shore, puffins on the doorsteps and many thousands of guillemots perched precariously on the Harp Rock nearby. The seas around the Treshnish Isles and Staffa are famed for the regular sightings of minke whales, dolphins and basking sharks and this tour occasionally provides a wonderful opportunity to view them close to the boat. We then sail to Staffa to visit Fingal's Cave immortalised by Mendelssohn in his Overture to the Hebrides. From Staffa then to Iona\* for a two hour visit to see the historic sites and have a late lunch or refreshments. Later sail across the Sound of Iona back to Fionnphort for the coach to Craignure for the ferry back to Oban.

This tour is highly recommended and operates daily except Saturdays until 11th August when the puffins and other seabirds usually migrate.

\* Iona not visited on Sunday's and Monday's

**Adults £65 Children £32.50**

The above tours are operated in conjunction with Cal Mac and West Coast Tours.

## TRESHNISH WILDLIFE TOUR via Tobermory

If spotted you will be given ample time to enjoy being in the company of these spectacular species. After this short sail, we land on the wildlife paradise of Lunga, the largest of the Treshnish Isles. Lunga is also a popular habitat to an ever increasing number of **Guillemot, Razorbill, Kittiwake, Fulmar, Shag, Great Skua** and a **Seal colony**. After spending up to two hours ashore exploring the Treshnish Isles, we take the short 15 minute crossing to the geological wonder of Staffa, culminating in a visit to the world famous Fingal's Cave, as visited in 1829 by the world famous composer Felix Mendelssohn. Returning home gives you further opportunity to enjoy the magnificent surrounds of Coll, Tiree, Calgary beach, Ben More, Ardnamurchan Lighthouse with the beautiful small isles to the North and another chance to sight our iconic marine Mammals!
